## Summary:

Young, energetic & promising professional with formal education in graphic arts, multimedia, mass communication, & fine arts as well as Art Education. Special emphasis on conceptual design, illustration & multimedia projects. Works well with teammates & individually.

## Skills:

I am a proficient manipulator of Adobe Illustrator, Photoshop, Dreamweaver, Fireworks, PageMaker, and InDesign. As well as QuarkXPress, Microsoft Word, Power Point, Excel, HTML documents, and Mac iProducts. I am an accomplished illustrator and have learned to use digital photography to supplement my digital art skills. I am versed in the use of standard photography and development as well as video production. I have learned to both work as a team and lead a team as demonstrated with my athletic background, my work experience and athletic coaching.

## Education:

Bachelor of Arts Colorado State University-Pueblo 2004  
Associate of Arts In Visual Communication Collins College 1998  
Attended Youngstown State University 2000-2002  
Attended Yavapai College 1998-2000

## Work Experience:

### Freelance Designer:

I have worked on many Freelance projects over the years, many of which are not disclosed by confidentiality agreements and private licensing. However, I have worked on several projects for clients and still provide services for these continuing customers.

### Clark County School District:

I have taught in a Full-Time capacity as a Digital Media, 3D Animation, and Computer Based Projects instructor. I have also been a Substitute Teacher filling in such positions as Art, Music, Math, Life Science, and Physical Education. I dealt with many learning challenged students including English Language Learners and discipline issues.

### Silverton Casino:

I serve as a Security Officer and offer excellent customer service and safety to hotel guests as well as working special events such as concerts. Day to day dealings with guest issues and safety concerns are met with a smile and true concern for each guest.

### Fremont RE-1 School District:

Substitute Teacher filling in such positions as Art, Music, Math, Life Science, and Physical Education. I dealt with many discipline and learning challenged students. Day to day experiences varied and were challenging.

### Florence High School:

Junior Varsity coach and Varsity Assistant Coach dealing with all aspects of coaching and team building skills.

### Colorado Department of Corrections:

PRO Unit staff that is trained in effective management of the state's most violent, dangerous and disruptive Offenders preparing them for reintegration into less secure facilities. Also a team member of the High Security Emergency Response Team with multiple weapon proficiency.

### Lehman Communications:

Ad designer working mainly with QuarkXPress. Required quick idea execution within a limited space. Working with both full color and black and white images, production deadlines were of precedence. Daily production as well as special assignments were executed.

## Special Projects:

### Perkolate Design:

I have worked on several projects from initial sketch design to final product. Due to my freelance status with Perkolate, I cannot divulge details on projects they produce as a company.

### Belvedere's Blues Fest:

Character design, T-shirt design and logo design for a local restaurant's annual blues festival. Required work up sketches and a final color drawing as well as computer generated finals for screen printing production.

### Canon City Music & Blossom Festival:

Designed a T-shirt, event poster, and promotional pin. Required work up of sketches to a final tight drawing and computer output of drawing and text. Worked with both the print shop for the poster and silk screener for the T-shirt to attain the final product.

### Bubba's Sporting Goods:

Worked as a freelance artist doing T-shirt design as well as embroidery designs. Required work up of sketches to detailed images and computer designs. I also had the opportunity to work on the silk-screen images and monitor the embroidery machine process.
